

Street cleaning trolley h951_05

Manual trolley for external municipal cleaning, with storage compartment and open shelf, height-adjustable handle. Dimensions: W 90 x D 71 x H 103 cm.

The **street cleaning trolley h951_05** is designed for municipal cleaning needs and professional use in outdoor spaces. Thanks to its robust and versatile structure, this trolley facilitates waste collection and management operations, offering reliability and comfort during prolonged use. With a **120-liter capacity**, it allows for collecting large amounts of waste without frequent interruptions.

The design with **two axles** and **parking brake** ensures stability even during stops and loading/unloading operations. The **front wheels** with a **310 mm diameter** allow for easy movement on uneven terrain and irregular surfaces. The **horizontal tool holder** supports up to **four handled tools**, while the **vertical pocket** offers additional space for long tools, keeping them within reach.

The trolley is equipped with a **lockable storage compartment**, ideal for the security of valuable tools and materials, and an **open shelf** that allows quick access to frequently used tools. The **height-adjustable handle** ensures optimal ergonomics, adapting to the operator to reduce physical strain.

Built with an **aluminum and steel frame**, the trolley combines lightness and strength, ensuring long life and effective protection against corrosion and atmospheric agents.

Simplify and enhance your urban cleaning operations with the **street cleaning trolley h951_05**. Order now to improve your team's productivity and efficiency. Contact us for a personalized quote!

Technical features:

- **Dimensions:** W 90 x D 71 x H 103 cm.
- **Weight:** 23 kg.
- **Capacity:** 120 liters.
- **Wheels:** ø 310 mm, with parking brake.
- **Structure:** Aluminum and steel frame.
- **Tool holder:** Horizontal for four tools.
- **Vertical pocket:** For additional tools.
- **Closed compartment:** Lockable.

FAQ:

- **How many wheels does the trolley have?**

It is equipped with 4 wheels and a double axle for stability.

- **Is it suitable for uneven terrain?**

Yes, the 310 mm wheels ensure excellent maneuverability on difficult surfaces.

- **Is the handle adjustable?**

Yes, the handle can be adjusted to fit the operator's height.

Mini buying guide:

When choosing a **street cleaning trolley**, it is important to consider various features that influence the efficiency and comfort of operations. The **h951_05** model is ideal for municipal and professional cleaning needs thanks to its **robust structure** and **120-liter capacity**, which allows for collecting a large volume of waste without having to empty it frequently. This makes it particularly useful for long work sessions in public spaces such as streets, squares, and parks. A distinctive element of the **h951_05** trolley is the **two-axle structure** and **parking brake**, which ensure stability during stops and during loading and unloading operations. The **front wheels** with a diameter of **310 mm** allow for smooth maneuverability even on irregular surfaces, such as pebbles, asphalt, or uneven ground, ensuring reliable performance in all conditions. The **height-adjustable handle** is essential for maintaining correct posture during use, avoiding fatigue and improving operator comfort. This feature is particularly appreciated when the trolley is used by personnel of different heights, allowing for personalized ergonomics.
