

## Street cleaning trolley with bag support h951\_09

Lightweight and compact hand trolley, with aluminum and galvanized steel structure, pneumatic wheels and 120-liter bag support. Dimensions: W 37 x D 50 x H 150 cm.

The **H951\_09 street cleaning trolley** is designed for the **efficient collection and management of waste** in urban environments, parks, green areas, campsites, and public spaces. Thanks to its **lightweight yet robust structure**, it is easy to maneuver even on **difficult terrain**, making it ideal for ecological operators, cleaners, and maintenance services.

The frame is made of **powder-coated aluminum and galvanized steel**, offering **resistance to corrosion and weathering**. It is equipped with a **120-liter bag support** (bag not included) and a practical **litter picker holder**, facilitating waste collection without having to bend down repeatedly.

The **two Ø 260 mm pneumatic wheels** guarantee **smooth and stable movement** on different types of surfaces, including gravel, grass, and irregular pavements. The **handle can be mounted on both sides**, allowing for personalized use based on the operator's preferences.

Supplied in an **assembly kit**, the trolley assembles quickly and is ready for use in minutes.

Order the **H951\_09 street cleaning trolley** now and improve waste collection management with a practical and ergonomic system!

### Technical specifications:
