

## Street furniture bench in Tyrol pine h463\_11

Curved bench in steel and HPL slat effect, anthracite finish. Dimensions: L 203.5 x D 74.6 x H 42 cm.

The **curved street furniture bench H463\_11** is an elegant and functional solution for public spaces, gardens, parks, and pedestrian areas. Thanks to its modern curved design, this seating invites socialization and interaction, making it ideal for urban contexts where **sharing** and **conviviality** are essential.

Made with a solid **powder-coated steel** structure, resistant to **atmospheric agents**, **corrosion**, and **UV rays**, it is designed to maintain its aesthetic appearance and functionality even after years of outdoor exposure. The seating surface in **compact HPL** (High Pressure Laminate) with a **Tyrol pine slat effect** finish adds a natural and modern touch at the same time, without requiring complex maintenance.

Thanks to the **modular** system, it can be used alone or combined with other units from the same series to create **curved, serpentine, or circular compositions**, offering infinite design possibilities. **Ground fixing** is achieved through **6 anchorage points**, ensuring stability and safety even in high-traffic pedestrian areas.

With a height of 420 mm, a depth of 746 mm, and a curved length of 2035 mm, this bench represents an ergonomic, robust, and designer solution for those wishing to enhance open spaces with durable, quality elements.

### Technical characteristics:

- **Structure:** galvanized and anti-UV powder-coated steel
- **Seat:** compact HPL with Tyrol pine slat effect
- **Structure color:** anthracite RAL 7016
- **Dimensions:** L 203.5 x D 74.6 x H 42 cm
- **Installation:** to be anchored to the ground with 6 fixing points
- **Design:** curved with rounded corners
- **Maintenance:** easy, with a simple soft cloth and soapy water
- **Use:** outdoor (public gardens, parks, relaxation areas, urban spaces)

### Benefits for the user:

- **Stimulates:** socialization in public spaces.
- **Adapts:** to different compositions thanks to modularity.
- **Aesthetics:** elegant and contemporary.
- **Extreme:** resistance to weather, UV rays, and wear.
- **Installation:** secure and stable for high-traffic environments.

### FAQ:

1. **Is the product resistant to rain and sun?**  
Yes, thanks to the anti-UV powder coating and anti-corrosion materials, it is designed for permanent outdoor use.
2. **Is it possible to install it on concrete or porphyry surfaces?**  
Yes, the bench is designed to be fixed using anchors on rigid surfaces.
3. **Is the seat material subject to fading?**  
No, compact HPL is highly resistant to UV rays and maintains its color over time.

4. **Can I create a circular arrangement with multiple benches?**

Yes, the modular design allows for curved, serpentine, or ring installations, depending on needs.

5. **Is special maintenance required?**

No, periodic cleaning with a soft cloth and soapy water is enough to keep it in excellent condition.

**Mini buying guide:**

When choosing a **street furniture bench**, evaluate the **resistance of materials** to atmospheric agents, the **stability of the structure**, the **modularity** (especially for complex projects), and the **design**, which must integrate harmoniously into the surrounding environment. A seat in **HPL and powder-coated steel**, such as the H463\_11 model, guarantees **longevity, safety, and ease of maintenance**. Choosing a modular bench also means having the possibility to expand or modify the layout of the urban space over time, without having to replace the elements already installed.
