

Street furniture bench in wood and concrete h319_141

Urban bench in concrete, steel and wood, with reinforced internal armature and modern design. Dimensions: L 1400 x D 1400 x H 500 mm. Weight: 1700 kg.

The **H319_141 bench** is a **contemporary design and maximum resistance** solution for street furniture, ideal for **squares, parks, gardens and public spaces**. Built with **high-quality concrete and continuous wire internal iron reinforcement**, it guarantees **stability, durability and resistance to atmospheric agents**.

The **wooden seat** adds a natural and comfortable touch, while the geometric shape with a **central hole (700 x 700 x 400 mm)** makes it a distinctive architectural element, perfect for the enhancement of public spaces.

The production process follows **high quality standards**, including **casting in custom molds, controlled hardening and handcrafted processing** to ensure a **precise, smooth and comfortable finish**. Upon request, it can be treated with **painting or anti-degradation treatments** for greater resistance over time.

Buy now the **H319_141 concrete and wood street furniture bench** for an exclusive, robust street furniture with a refined design! Request a personalized quote immediately.

Technical features:

- **Materials:** concrete, steel and wood
- **Dimensions:** L 1400 x D 1400 x H 500 mm
- **Central hole dimensions:** L 700 x D 700 x H 400 mm
- **Seat height:** 450 mm
- **Weight:** 1700 kg
- **Structure:** iron reinforcement for maximum resistance
- **Resistance:** designed for extreme weather conditions and intensive use
- **Finishes:** available in different finishes
- **Maintenance:** minimal, with the possibility of additional protective treatments

User benefits:

- **Robustness:** exceptional, ideal for public spaces with high footfall.
- **Design:** modern and geometric, perfect for urban redevelopment projects.
- **Seat:** in wood for greater comfort.
- **Low maintenance:** with the possibility of protective treatments on request.
- **High resistance:** to atmospheric agents and vandalism.

FAQ:

1. **Can the bench be customized?**
Yes, it is available in different finishes and can be treated with additional protections.
2. **Is it resistant to vandalism?**
Yes, the reinforced concrete with internal iron reinforcement ensures maximum resistance.
3. **Does it require maintenance?**
No, it is designed to be low maintenance, but it can be treated for greater durability.
4. **What advantages does the central hole offer?**
The central hole gives a distinctive design and allows for greater versatility of use.

5. How is delivery carried out?

After rigorous quality control, the bench is carefully packed to ensure arrival in perfect condition.

Mini buying guide:

When choosing a **street bench**, it is essential to consider **resistance, aesthetics and functionality**.

The model **H319_141**, with a **reinforced concrete structure, wooden seat and decorative central hole**, is ideal for those looking for a **modern and resistant architectural solution** for parks, squares and public areas.
