

Street furniture bollards h86_230

Design bollard in RAL 7016 painted steel, height 1200 mm and diameter 102 mm. Fixed inground installation for street furniture and private spaces.

This **design bollard** represents an elegant and functional solution for the delimitation and furnishing of **public and private spaces**. Entirely made of **steel**, the bollard body undergoes a powder coating process that guarantees high UV resistance and long-lasting corrosion protection, making it ideal for prolonged exposure to atmospheric agents in urban or industrial contexts.

The structure is distinguished by the **steel head** with a thickness of 1.5 mm, welded directly to the tube to ensure maximum solidity and structural integrity. The anchoring system involves **inground installation**, guaranteeing permanent stability and a high degree of passive safety.

Technical features

- **Body material:** high-resistance steel
- **Finish:** UV-resistant powder coating
- **Color:** anthracite gray RAL 7016
- **Head:** in steel with 1.5 mm thickness, welded to the tube
- **Diameter:** 102 mm
- **Total height:** 1200 mm
- **Installation:** inground anchoring (reinforcement not supplied)
