

Street furniture fountain h521_23

Outdoor fountain in black steel, Ø 190 mm x h 1000 mm. Vandal-proof structure with self-closing faucet and base grate for street furniture.

The **outdoor fountain** is a street furniture element designed to combine modern aesthetics and maximum functionality in public contexts such as parks, gardens, and pedestrian areas. Made with a **circular section steel metal structure**, it is conceived to withstand the stresses typical of high-traffic open spaces. The main body is integrated with a robust **metal grate equipped with a frame**, which ensures proper water drainage and cleanliness of the surrounding area. The **vandal-proof** configuration and the oven-baked polyester paint finish guarantee superior protection against atmospheric agents and mechanical wear, maintaining the integrity of the product over time.

Technical features

- **Post dimensions:** Ø 190 mm x h. 1000 mm
- **Total depth:** 540 mm (350 mm grate + 190 mm post)
- **Weight:** 35 kg

- **Material:** Steel with black polyester powder-coated finish
- **Faucet:** Self-closing push-button mechanism with flow control
- **Fixing system:** Grate with side anchors for ground installation
- **Design:** Circular vandal-proof structure for public environments
