

Street furniture fountain h744_31

Rectangular metal fountain for street furniture. With drainage grate. Dimensions: W. 37 x D. 80 x h. 100 cm.

The **outdoor fountain** is a perfect example of how a simple design can meet innovation, creating an ideal architectural element to embellish squares, parks and avenues. Realized with a **solid metal structure**, this fountain offers durability and resistance to atmospheric agents, ensuring a long useful life even in the most adverse conditions. Its **minimalist design** blends harmoniously into different urban and natural contexts, adding a touch of elegance and functionality. The fountain is equipped with a practical **water drainage grate**, which not only facilitates the outflow of water, but also prevents its accumulation, ensuring an environment that is always clean and tidy. **Supplied without taps.**

Technical Features:

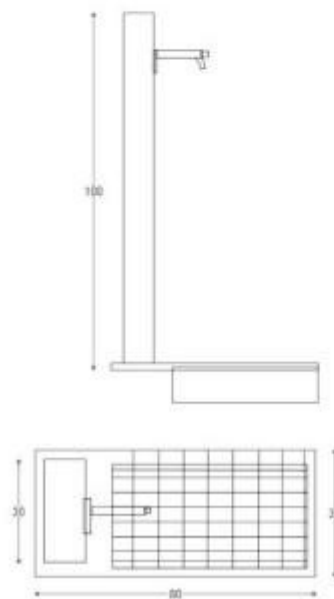

- Dimensions: W. 37 x D. 80 x h. 100 cm
- Material: metal
- Tap not included
- Ground flush anchoring
- Equipped with water drainage grate
