

Street furniture lectern with 40 x 40 cm sign h287_141

Galvanized steel information panel for street furniture, 48x100 cm, with transparent plexiglass protection for 40x40 cm signs, floor mounting.

Information panel designed for street furniture, specifically created for the insertion and display of **40 x 40 cm signs**. The structure is made of **galvanized round steel tubing** (diameter 40 x 1.5 mm) with a galvanized steel posting sheet, protected by a **transparent plexiglass sheet** that ensures the readability of the displayed content while keeping it sheltered from atmospheric agents.

The fixing system is via **flush-to-floor mounting**, ensuring a stable and discreet structure. All finishes undergo a **complete pre-treatment process**: degreasing of impurities using solutions and vapors, drying, painting with **non-toxic powders** and finally **oven curing** for the solidification of the powder. This treatment guarantees durability and resistance over time in outdoor environments.

Technical characteristics

- **Overall dimensions:** 48 x 100 cm (W x H)
- **Structure diameter:** 40 x 1.5 mm
- **Material:** galvanized steel
- **Information area dimensions:** 40 x 40 cm
- **Protection:** transparent plexiglass
- **Mounting:** flush-to-floor
- **Finishes:** non-toxic powder coating with oven curing
