

Stretcher for veterinary clinic h601_42

Animal transport stretcher in 304 stainless steel on wheels. Trolley dimensions: W.80.5 x D.57 x H.78 cm.

The veterinary clinic stretcher is essential for transporting pets from recovery cages to the operating room. **The stretcher is particularly suitable for large and heavy dogs.**

The product is made of **Aisi 304 stainless steel**, an extremely resistant and easily disinfectable material.

The **retractable handles** and the **epoxy-coated steel wheels** allow the stretcher to be moved comfortably even with heavy animals.

Technical features:

- Material: Aisi 304 steel
- Retractable handles
- Trolley on wheels in epoxy-coated steel
- 2 braking wheels
- Trolley dimensions: W80.5xD57xH78 cm
- Dimensions: W130xD50xH16 cm
