

Support for 2 x 200 lt drums h883_02

Horizontal painted steel support for storing 2 x 200-liter drums. Stackable structure with a capacity of 450 kg.

This **drum support** is designed to optimize **storage and dispensing** operations in industrial and logistical contexts. Made entirely of **painted steel**, the module allows for the horizontal positioning of two 200-liter drums, ensuring stability and safety during liquid handling. Its structural configuration facilitates access to the barrel valves, transforming simple storage into a functional workstation.

Technical features

- **Material:** painted steel
- **Capacity:** housing for 2 x 200-liter drums
- **Configuration:** horizontal storage
- **Maximum capacity:** 450 kg
- **Dimensions:** 134 x 60 x h. 75 cm
- **Modularity:** stackable structure

Note: drums and collection sump are not included in the supply.
