

Support for three 60-liter drums h883_04

Stackable painted steel support for the storage of 3 x 60-liter drums. Dimensions 134x60x75 cm, 450 kg load capacity and space-saving structure.

The **drum storage support** is a professional solution designed for the safe and rational organization of liquids in industrial environments. Made of high-resistance **painted steel**, this module allows drums to be positioned stably, facilitating management and retrieval operations. The distinguishing feature of the structure is its **stackability**, which allows for maximizing storage volume by exploiting the verticality of the warehouse without compromising load stability.

Technical specifications

- **Material:** heavy-gauge painted steel
- **Configuration:** stackable support for space optimization
- **Capacity:** housing for 3 x 60-liter drums
- **Maximum load capacity:** 450 kg
- **Dimensions:** 134 x 60 x h. 75 cm
