

## Surgical seat with anatomical saddle h576\_24

Medical stool with anatomical saddle and backrest. Material: 18/10 AISI 304 stainless steel. Overall dimensions: Ø 440 x h. from 590 to 790 mm.

The **professional stool** is an essential accessory in a medical surgery, ideal for helping professionals to perform their activities at best. This model is made entirely of **18/10 AISI 304 stainless steel** and features a structure complete with **backrest, anatomical seat** and a solid heavy **base with wheels**. The **backrest** is **anatomical with lumbar support, adjustable in height and depth** and mounted on a spring steel support. The **anatomical saddle seat** is designed to ensure a comfortable posture. The saddle has a 360° rotation. Both the seat and the backrest are **upholstered in high-density fire-retardant polyurethane** and **covered in antistatic imitation leather**. The **round base**, solid and robust, is **equipped with a centralized brake** with foot pedal activation and n. **5 antistatic non-marking rubber wheels** with a 60 mm diameter. The stool is **adjustable in height** via a **precision double-movement hydraulic pump elevation system** with a sealed circuit and foot-pedal activation. The **pedal** is **covered in high-grip rubber**.

### Technical features:

- Overall dimensions: Ø 440 x h. from 590 to 790 mm
- Adjustable height
- Saddle dimensions: W. 420 x h. 80 mm
- Weight: 22 kg
- Material: 18/10 AISI 304 stainless steel
- Elevation system with double-movement sealed circuit hydraulic pump
- Foot pedal activation
- Pedal coating: high-grip rubber
- Elevation range: from 590 to 790 mm
- Round base with centralized brake
- 5 antistatic non-marking rubber wheels Ø 60 mm
- Anatomical saddle seat

- Saddle rotation: 360°
- Anatomical backrest with lumbar support, adjustable in height and depth
- Spring steel support
- Saddle and seat padding: high-density fire-retardant polyurethane
- Saddle and seat cover: antistatic imitation leather
