

Surgical sink h1013_03

3-station sink in AISI 304 stainless steel, soundproofed basin and rounded edges. Dimensions: W 195 x D 55 x H 97.2 cm.

The **H1013_03 hospital stainless steel sink** is a **3-station surgical washbasin**, ideal for use in high-intensity healthcare environments such as **operating rooms, surgical departments and pre-operative areas**, where hygiene and functionality are fundamental requirements.

Completely made of AISI 304 stainless steel, this sink guarantees maximum resistance to corrosion, ease of sanitization and compliance with hygiene and health regulations. The material is suitable for intensive and frequent use typical of healthcare facilities. The sink is designed for mounting on a **load-bearing wall**. In the presence of plasterboard and/or similar walls, request the **specific fixing kit** which will be provided separately. Included: **drain plug, wall mounting bracket and flexible fitting** for the **water connection**.

The **basin is soundproofed** and equipped with an **anti-splash shape**, which reduces water dispersion during use, keeping the surrounding area clean. The **rounded edges** simplify daily cleaning operations and prevent bacteria buildup.

The sink is also equipped with an **anti-rumble application**, useful for reducing the noise generated by the water flow, contributing to a quieter and more comfortable working environment.

The product is supplied as a **monobloc structure** and must be wall-mounted. The **dimensions are 1950 x 550 x 972 mm (W x D x h)**.
