

Surgical sink stainless steel 2-station 130 cm h624_16

2-station surgical sink in AISI 304 satin stainless steel, 1600x565 mm. Splash-proof monoblock structure with photocell tapware. The **professional two-station surgical sink** is designed to meet the rigorous hygiene requirements of operating theaters in hospitals and specialized clinics. Entirely made of **AISI 304 satin stainless steel**, it features an advanced structural configuration where the front wall and the basin body are formed in a **single piece**. This total absence of joints eliminates critical points for bacterial accumulation and stagnation zones, drastically simplifying sanitization protocols. The basin body, with a depth of approximately **320 mm**, is characterized by a functional **splash-proof** shape to keep the working environment dry and safe.

Technical features

- **Total dimensions:** W. 1600 x D. 565 x h. 1160 mm
- **Number of stations:** 2 independent stations
- **Material:** AISI 304 stainless steel with satin finish
- **Basin depth:** 320 mm with splash-proof contoured design
- **Inspectability:** Removable front panels for ordinary and extraordinary maintenance
- **Delivery:** 2 photocell sources complete with mixer
- **Hygiene equipment:** 2 photocell soap dispensers (battery powered)
- **Included accessories:** 2 integrated toothbrush holders, drain plug and escutcheon
- **Installation:** Wall mounting
