

Swing with 1 flat seat and 1 cradle seat h749_19

Professional 2-seater swing with aluminum posts and steel crossbar. Includes flat and cradle seat for children from 1 to 6 years. The **h749_19** two-seater swing is a play structure designed for public and collective spaces requiring high standards of resistance and safety. Thanks to the mixed seat configuration, the product meets the play needs of different age groups, allowing simultaneous use by toddlers and older children. The combination of **aluminum** for the posts and **galvanized steel** for the crossbar ensures excellent structural stability and long-lasting protection against corrosive phenomena typical of outdoor environments.

The care for materials extends to functional details: stainless steel chains ensure smooth and safe movement, while the two-tone HDPE decorations add modern aesthetic value and are resistant to fading caused by UV rays.

Technical features

- **Dimensions:** L.349 x W.159 x h.164 cm
- **Structure:** Aluminum posts and galvanized steel crossbar
- **Suspensions:** High-resistance stainless steel chains
- **Seats included:** 1 flat seat and 1 cradle seat (safety for the little ones)
- **Seat material:** Internal aluminum core with protective rubber coating
- **Decorative components:** 19 mm two-tone HDPE panels
- **Age target:** 1-6 years
- **Safety:** Free Fall Height (FFH) less than 100 cm
- **Impact area:** Required safety surface of 16 sqm
