

Swivel blood collection chair 1 armrest h528_27

Blood collection chair 1 armrest. Black 5-star aluminum base. Adjustable height (420-540 mm). Load capacity: 140 kg.

Blood collection chairs are essential to ensure patients have a comfortable seat and allow for convenient arm positioning during collection. This model features an **aluminum structure with a black 5-star base**, equipped with **double castors with brakes**. **Seat and backrest** are **ergonomically shaped**, upholstered in **artificial leather**, available in various colors. The blood collection chair includes 1 armrest **that can be adjusted and fixed in height, inclination, and rotation direction**. The armrest features a chrome rod Ø 18 mm and is made of black PU foam. The **backrest is adjustable in height and inclination**. The **seat is swivelling and height-adjustable from a minimum of 420 to a maximum of 540 mm**, via a **gas spring and manual lever** located on the right side. Possibility to purchase, as an optional extra, a **1700 mm stainless steel IV pole with 4 hooks** and an **armrest**.
