

Table for nursery school h848_36

Table h848_36 (130x65x53h cm) in melamine thickness 25 mm and tubular Ø 40 mm for nursery school. Customizable colors on request.

The **Table for nursery school h848_36** is a furnishing solution designed for the setup of classrooms, laboratories, and recreational contexts dedicated to early childhood. The product solves the operational need to equip educational spaces with a safe, stable support surface dimensioned for the height of children, reducing the risks of accidental impact thanks to the presence of rounded edges. Aimed at nursery schools, kindergartens, playrooms, and managers of childcare centers, the table measures 130 x 65 cm with a height from the ground of 53 cm and a weight of 23.50 kg. The furniture consists of a melamine top with a thickness of 25 mm supported by a tubular structure with a diameter of 40 mm. As standard, the structure is available in Light Grey and Metallic finishes, while the top is supplied in Ivory, with the possibility of requesting the table in different colors on request.
