

Table with 25 mm thick melamine top h848_32

Table h848_32 (130x130x53h cm) in melamine 25 mm thick and tubular Ø 40 mm. Can be placed side-by-side for preschool classrooms.

The **Table with 25 mm thick melamine top h848_32** is a school furniture item designed for furnishing classrooms and educational spaces dedicated to early childhood. This table addresses the operational need to create flexible and safe work configurations, allowing both individual use and the placement of multiple modules side-by-side to set up classrooms. The structure reduces the risk of accidental impact thanks to the top design with rounded edges. Targeted at preschools, nurseries, playrooms, and educational centers, the furniture consists of a 25 mm thick melamine top and a tubular structure with a diameter of 40 mm. The table measures 130 x 130 cm with a height from the ground of 53 cm and a net weight of 41.00 kg. The structure is supplied in Light Grey and Metallic color variants, while the top is made in an Ivory finish, with the possibility of requesting the top in a different color upon request.
