

Tabletop cone holder display with 1 row in plexiglass h412_30

Transparent plexiglass display, with 1 row for cones. Ideal for ice cream parlour and pastry shop counters. Dimensions: W 11 x D 11 x H 45 cm.

The **H412_30 tabletop cone holder display** is the perfect solution for organizing and protecting ice cream cones in professional environments such as ice cream parlours, pastry shops and bars. Made of **transparent plexiglass**, it allows you to keep the cones visible and always at hand, improving service efficiency.

Thanks to its **compact and vertical structure**, it takes up little space on the counter, allowing for an orderly and practical arrangement. The **single-row** design is ideal for those wanting a minimal but functional display. The **central hole** keeps the cones stable and easily accessible, avoiding waste and ensuring fast service.

The **dimensions of 11 x 11 x 45 cm** make it perfect for small spaces without compromising the capacity to hold a good number of cones. The **plexiglass material** is resistant, easy to clean and complies with the hygiene standards required in the food sector.

Buy the **H412_30 cone holder display** now and optimize the organization of your ice cream parlour counter! Request a personalized quote.

- **Structure:** compact to optimize counter space.
- **Design:** transparent for immediate control of the quantity of cones available.
- **Material:** resistant and easy to clean for professional use.
- **Ideal:** for fast and organized service.

FAQ:

1. **How many cones can the display hold?**

The capacity depends on the height of the cones, but the structure allows for several in a single row.

2. **What are its dimensions?**

The cone holder has the following dimensions W 11 x D 11 x H 45 cm.

3. **Is plexiglass impact resistant?**

Yes, it is a robust material, designed for intensive professional use.

4. **How is the display cleaned?**

We recommend using a soft cloth and non-abrasive detergents to avoid scratches and maintain transparency.

5. **Does it completely protect the cones from dust?**

Yes, the closed structure reduces contact with dust and external agents, keeping the cones more hygienic.

Mini guide to purchase:

When choosing an **ice cream cone display**, it is important to consider **dimensions and capacity** based on the available space and the number of cones to be displayed.

A compact model like the H412_30 is ideal for small work counters, offering **order and practicality**.

The **plexiglass material** is an excellent choice for its **transparency, resistance and ease of cleaning**. Furthermore, a vertical design allows for **optimizing space**, keeping cones well-organized and protected.
