

Task chair with gas lift h449_182

Task chair with contoured backrest, chrome base and gas lift. Dimensions: D 63 x H from 107 to 119 cm.

The **H449_182 task chair with gas lift** is designed for intensive use up to **12 hours daily**, ideal for professional offices and workstations requiring ergonomics and resistance. Equipped with a **steel structure** and **chrome base**, it combines robustness and modern design, ensuring stability and durability over time.

The **contoured backrest padded with T25 foam** supports the back correctly, while the ergonomic seat padded in PPL ensures comfort even during long working sessions. The **asynchro mechanism between seat and backrest with multiblock** allows for independent and customized adjustment, while the **permanent contact system with height-adjustable backrest** promotes optimal posture.

The **TUV-certified gas lift** and compliance with **DL 81/08** and **EN 1335-B** regulations make this chair a safe and professional choice. The **Ø 50 mm nylon wheels** guarantee smoothness and stability. **Armrests are not included, see options**, but can be added as an optional extra to further increase comfort. With a **maximum load capacity of 110 kg**, the H449_182 represents a complete and certified solution for every operational need.

Buy the **H449_182 task chair** now and ensure an ergonomic, resistant workstation compliant with safety regulations.
