

Telescopic ladder h858_55

Multi-purpose aluminum ladder 2 meters, 150 kg capacity, EN 131 compliant. Lightweight, equipped with stabilizer and anti-wear rubber protections.

This **multi-purpose ladder** is designed to offer maximum versatility and safety in professional and maintenance contexts. The **aluminum** structure combines high mechanical resistance with remarkable lightness, facilitating transport and positioning operations. Made in full compliance with **EN 131** safety standards, the ladder integrates robust rubber padding that increases stability and protects contact points from premature wear.

Technical characteristics

- **Material:** High-resistance aluminum
- **Compliance:** EN 131 safety standards
- **Maximum capacity:** 150 kg
- **Total height:** 2 m
- **Upper width:** 44 cm
- **Lower width:** 47 cm
- **Stabilizer width:** 67 cm
- **Distance between side rails:** 32 cm
- **Accessories:** Anti-wear rubber padding
