

Telescopic work ladder h853_12

Professional telescopic ladder in extruded aluminum 12+12 rungs, equipped with foldable stabilizers and levelers for irregular surfaces.

This **professional telescopic ladder** is designed to meet the needs of industrial and maintenance contexts requiring a versatile tool for intensive use. The load-bearing structure in **extruded aluminum** ensures high mechanical strength, while the professional stamped aluminum plate hinge ensures smooth and precise operational configuration adjustment.

Technical features

- **Material:** High-resistance extruded aluminum
- **Configuration:** 12 + 12 rungs with adjustable telescopic legs
- **Safety system:** Foldable base stabilizers for stable support
- **Stabilizers:** Two foldable elements to optimize dimensions during transport
- **Mobility:** Two non-marking wheels for quick movement between work areas
- **Leveling:** Two integrated levelers to operate on uneven ground or height differences
- **Included accessories:** Integrated tool bag
- **Mechanics:** Professional stamped aluminum plate hinge
