

Teqball table for outdoor use h939_07

Curved Teqball table in galvanized steel and HDPE. Dimensions 294x152 cm. Anti-vandal structure and certified for public use in parks and schools.

The **h939_07 Teqball table** represents a cutting-edge solution for urban sports furniture, designed to combine the dynamism of football with the precision of table tennis. Characterized by a **curved playing surface**, this model allows for practicing teqball, a rapidly expanding discipline that stimulates ball control and coordination without physical contact. The structure is specifically designed for high-traffic contexts such as **public parks, schools and recreational centers**, where durability and resistance to mechanical stress are essential requirements.

Technical features

- **Materials:** Load-bearing structure in galvanized and lacquered steel; high-density polyethylene (HDPE) panels with integrated UV protection.
- **Net:** Made of oven-painted galvanized steel, free of sharp edges for user safety.
- **Safety:** Screws protected by polypropylene caps; absence of sharp corners.
- **Overall dimensions:** Length 294 cm; width 152 cm (with net) / 148 cm (without net).
- **Height:** 97 cm at the net; 82 cm at the playing surface.
- **Safety area:** Minimum required surface of 45.32 m².
- **Capacity:** Designed to accommodate 2 to 4 players simultaneously.
- **Installation:** Fixing via expansion bolts (included) on hard surfaces or concrete blocks on soft ground.
- **Regulation:** Certified according to the European standard **UNE EN 15312:2007 + A1:2011** for free-access sports equipment.
- **Resistance:** Total anti-corrosion treatment and anti-vandal properties.
- **Age of use:** Recommended from 12 years and up.
