

Termigea h23054 home care hospital bed

Bed for the disabled and elderly with a single-crank base. Frame and base oven-painted white. Maximum capacity: 150 Kg. Dimensions: 205 x 85 x h. 50 cm.

The **single-crank hospital bed for home care** allows for the adjustment of the backrest inclination. The headboard and footboard are made of white-painted steel and complete with **MDF panels** in cream color. The attachment of the supporting structure to the headboard and footboard is done via a press-folded sheet metal bayonet fitting. The **bed base is made of tubular steel** and electro-welded rods with support bars. The frame and the base are oven-painted white. Additionally, the home care bed is equipped with a **foldable chrome-plated crank** complete with a limit stop.

Technical features:

- Headboard and footboard in white painted steel
- MDF wood panels in cream color
- Bed base in tubular steel and electro-welded rod
- Frame and base painted white
- Chrome-plated crank with limit stop
- Inclination via manual crank (0° ~ 85° +/- 5°)
- Dimensions: 205 x 85 x h.50 cm (height from the ground to the top of the supporting structure)
- Maximum capacity: 150 Kg
- Classification code: ISO: 18.12.07.003

Optional:

- **Fixed containment side rails** made of chrome-plated tubular steel. They are fixed to the headboard and footboard of the bed by means of an adjustment knob. Dimensions: 44 x 200 cm. Weight: 4.5 kg each.
