

Therapeutic veterinary table h930_28

Veterinary operating table with 160x65 cm top. Electrically adjustable height. Dimensions: L. 167 x D. 65 x h. 80-116 cm.

The **veterinary operating and therapeutic table** is designed to ensure practicality and comfort during procedures and therapies. With **electric height adjustment via foot pedal**, this model offers a **large 160x65 cm work surface**, ideal for every veterinary need. The **powder-coated steel structure** ensures resistance against scratches and chips, while the **stainless steel top** is equipped with **two drainage holes**, facilitating cleaning and hygiene. **Handles** located on the long sides of the table and **rails** for accessories allow for adding extra tools and supports, improving versatility. The table is stable thanks to the **4 rubber feet** and is supplied with a comfortable **mattress and non-slip mat** for safe and comfortable use.
