

Therapy administration trolley h31507

Drug distribution trolley with roller shutter closure and thermoformed plastic top. 4 twin wheels Ø125 mm. Dimensions: 830x650xh1447 cm.

Trolley designed for **drug distribution and therapy administration**; particularly suitable for hospitals, polyclinics, clinics and nursing homes. Structure assembled with **anodized aluminum walls and corners** complete with roller shutter closure with bottom-to-top opening. The medication trolley is equipped with internal plastic walls with molded ISO guides, complete with drawer stops. Thanks to the **four non-marking, anti-thread twin wheels** with ball bearings, the trolley moves with extreme ease between departments.

Technical features:

- Structure assembled with anodized aluminum walls and corners
- Mauve-colored roller shutter closure
- Grey thermoformed plastic top
- 6 trays with 24 drug drawers 125x400xh.58 mm + 7 trays with 42 drug drawers 80x400xh.58 mm
- Total: 66 drug drawers
- Injection-molded PC/ABS plastic base with peripheral bumpers
- 4 twin wheels Ø 125 mm (two of which with brake)
- Dimensions: 830x650xh.1447 mm
