

Therapy table with variable height h559_32

Multifunctional medical examination table with electrically adjustable height. Available in multiple color variants. Dimensions: H min 50 max 94 x L 195 x D 68 cm.

4-section treatment table with variable height and TR/TRT movement for physiotherapy. **Metal** structure, **stable and robust**, easy for the operator to use and comfortable for the patient. The metal parts undergo **phospho-degreasing, rinsing** and, subsequently, **painting** with **polymerized powder coatings** at 200°C, with a thickness of 70/80 microns. **Glossy finish**. The table consists of **4 sections** made of **high-density foam** and covered with **class 1 IM fire-retardant coated fabric**, easily washable with common detergents. Furthermore, the **breathing hole** and **armrests** are included. The **height is electrically adjustable** and all electrical components comply with current hospital regulations. There are **two electric columns** with a **force of 2000N** each, through which it is possible to vary the height of the table, working both simultaneously and separately, allowing the structure to reach the TR/TRT position with ease. There are cushions reclinable via **gas springs (600N force)** operated with ergonomic levers located under the upper frame. The headrest can tilt to +70° and -35°. The leg cushion tilts to +80° in positive. **Product available in multiple color variants**. The **load capacity** is **200kg**.

Technical features:

- Dimensions: H min 50 max 94 x L 195 x D 68 cm
- Load capacity: 200 kg
- Weight: 80 kg
- Structure material: metal
- High-density foam padding
- Class 1 IM fire-retardant coated fabric covering (skai, faux leather)
- Electrically adjustable height
- 4 sections reclinable via gas springs
- Headrest height adjustment: +70° -35°
- Leg cushion height adjustment: +80°
- Paper roll holder supplied as standard
- 4 adjustable feet
- Breathing hole and armrests included
- Article treated by phospho-degreasing, rinsing and painting
- Available in multiple color variants
- Class 1 medical device compliant with the requirements of Directive EEC 93/42

**On request and upon quotation, it is possible to add other accessories*

**Optional: Wheel kit*

**Images purely indicative.*

**Upon quotation, it is possible to request the table in a different width compared to the standard ones (68 cm/80 cm/100 cm/120 cm).*

INFORMATION

- **Strengths** elettrico
- **Type** Altezza regolabile
- **Material** metallo
- **Height in millimetres** 9400.000000
- **Length in millimetres** 1950.000000
- **Depth in millimetres** 680.000000
