

Therapy trolley with 10 drawers h527_26

Therapy trolley with 10 drawers, centralized lock, pull-out shelf with trays and side waste bin.

The **therapy trolley with 10 drawers h527_26** is designed for the management and organization of medications, devices, and medical supplies during care activities. The structure combines robustness and operational practicality thanks to components made of technical materials and a configuration designed to ensure order, accessibility, and ease of movement.

Characterized by rounded lines, the trolley offers high stability and maneuverability. The front compartment is equipped with drawers fitted with label holders, while the centralized locking system allows the contents to be protected. The presence of an additional pull-out shelf with side trays and an integrated waste bin supports operational activities directly at the point of use.
