

Thermal container 85 liters for medical use h18418

Thermal container physician polypropylene foam easy to clean.

Medical Thermal container frame **polypropylene foam** gray inside and out, UV resistant and shock. Polypropylene is a material very much used in industry and design as:

- light
- easy to wash
- resistant to heat, moisture, solvents, acids and wear
- non-toxic
- odorless
- easily sterilized

The internal corners are rounded to facilitate the cleaning and the inner housing is provided with a hole for the drainage of liquids, non-drip cap with pressure closing.

The insulation is polyurethane foam (density 40 kg / m³) with a thickness of 35 mm. **CFC and HCFC free.** The cfc, or clorocarbuti are halogen derivatives of hydrocarbons, are not toxic, but, for the fact of being chemically inert and lighter than air, reach the ozone layer in the stratosphere, decomposing this gas, with the danger of reducing the screen that protects life on earth from ultraviolet rays.

HCFCs, also known as hydrochlorofluorocarbons, are chemical compounds used to temporarily replace CFCs Thanks to the presence of a hydrogen atom, HCFCs are degraded much more rapidly compared to CFCs. This means that only a fraction of the substance reaches the ozone layer. The replacement of CFCs with HCFCs and other substances has already reduced the potential effect of global thinning of the ozone layer than 3% compared to the values ??calculated at the beginning of the nineties.

Thanks to the high **insulation coefficient**, the container ensures high autonomy of temperature maintenance.

The two **side handles**, hinged to the body, allowing easy movement and a comfortable grip. They are made of durable plastic for intensive use.

The **cover** is made ??of the same material and with the same insulation of the shell. It 'also equipped with a rubber seal to guarantee a perfect seal and two hooks lever, made of plastic material of black color with elastic sealing.

Features:

- net capacity 85 liters
- Dimensions (WxDxH) 84x50x44 cm
- net weight of 13.1 kg

INFORMATION

- **Height** 44 cm
- **Width** 84 cm
- **Depth** 50 cm
- **Capacity** 85 lt
- **warranty** 1 anno
