

Thermoelectric 30 lt minibar for hotel h7666

30 lt thermoelectric minibar for hotels with reversible glass door, totally silent, ideal for built-in or free-standing installation. 38x44x46.5 cm (W x D x H).

The **30-liter thermoelectric minibar** is the ideal solution for hospitality facilities wishing to offer a high-level courtesy service without compromising the guests' rest. Thanks to thermoelectric technology, the minibar is **totally silent**, eliminating the mechanical noise typical of compressor systems and solving the problem of night-time disturbances in hotel rooms.

Designed for a professional target consisting of hotels, B&Bs, and resorts, this model combines a modern aesthetic in black with a **reversible glass door** that allows for immediate viewing of the contents, encouraging the consumption of beverages. The installation versatility, both built-in and free-standing, makes it adaptable to any furniture configuration, ensuring maximum operational flexibility.
