Thermoelectric minibar for hotels h7677

19-liter thermoelectric minibar, silent and class E. Compact black design with LED light, reversible door and automatic defrost. External dim.: W. 402 x D. 350 x H. 450 mm.

The **H7677 thermoelectric minibar** is the ideal solution for hospitality facilities that require a compact and **totally silent** refrigeration system. Thanks to the absence of moving mechanical parts typical of compressor systems, this refrigerator ensures maximum acoustic comfort in hotel rooms, solving the problem of night-time disturbances for guests. Designed for a professional HoReCa target, it fits perfectly both for **built-in installation** and free-standing use, optimizing small spaces thanks to a depth of only 350 mm.

Internal management is facilitated by the adjustable shelf and **high-visibility LED** lighting, while operational efficiency is guaranteed by the electronic thermostat and cyclic automatic defrost, which reduce routine maintenance tasks for the staff.

Technical features

- **External dimensions:** W. 402 x D. 350 x H. 450 mm
- **Net volume:** 19 liters
- **Refrigeration system:** Thermoelectric (absolute silence)
- **Energy class (EU 2019/2016):** E
- **Energy consumption:** 73 kWh/year
- **Airborne acoustical noise emission level:** Class A
- **Power supply:** 220-240 V / 50 Hz
- **Rated power:** 58 Watt
- **Weight:** approx. 10 kg
- **Color:** Black
- **Climate class:** N (temperate zone)
- **Certifications:** CE / RoHS / UKCA
- **Equipment:** Electronic thermostat, automatic defrost, internal LED light
- **Configuration:** 1 adjustable shelf, reversible door, sliding hinge for door included
