Thermoelectric minibar h7662

33 lt thermoelectric minibar for hotels, ultra-silent (0 dB) in class F. Compact black design (W.402 mm) with built-in or free-standing installation.

The **h7662 thermoelectric minibar** is the ideal solution for accommodation facilities that place acoustic comfort at the heart of the guest's experience. Thanks to thermoelectric technology, this minibar guarantees a **noise level of 0 dB**, eliminating any disturbance during night rest in the hotel room. Designed for a high-level professional target, it solves the problem of vibrations and humming typical of compressor systems, while offering optimal space management thanks to the **reversible door** and the possibility of both free-standing and built-in installation.
