

## Three-bin recycling station h719\_09

Waste separation container with three compartments. Capacity: 3 x 30 lt. Dimensions: h 600 x w 910 x D 300 mm.

Set of **3 containers** ideal for waste separation in indoor locations such as shopping centers, offices, gyms, sports complexes, universities. The recycling station is made of **high-quality galvanized steel**, powder-coated and fireproof. The three containers are equipped with **swing lids** opening downwards, with **colored perimeter elements for better sorting safety**, allowing hygienic waste disposal, and **3 internal containers** with a **capacity of 30 lt each**. The structure features **3 recessed swing doors** on the front and is closed with a **square key lock** (key included). The recycling station is equipped with **2 adjustable feet** at the base that ensure greater stability, compensating for floor irregularities.
