

Three-compartment recycling station with pedals h719_18

Compact indoor three-compartment recycling system with pedals. Dimensions: h 1000 x w 1180 x d 380 mm.

Useful container for sorting three types of waste, ideal for placement in indoor areas such as shopping malls, sports centers, offices, public facilities. The structure is made of **galvanized and powder-coated steel sheet**. Composed of **3 internal galvanized containers**, with a capacity of 3 x 70 l, which ensure optimal waste collection. Thanks to the **two hinged doors with handles** positioned at the front of the structure, it is possible to remove the internal containers and the relative waste bags with ease. Equipped with a **square lock system (key included)**. At the top of the container there are **3 flaps that can be opened separately** via the **3 relative pedal levers** placed at the base of the recycling container. **3 colored protective films (ProPads)** for flap labeling supplied as standard.

Technical features:

- Dimensions: h 1000 x w 1180 x d 380 mm
- Material: powder-coated galvanized steel sheet
- Capacity: 3 x 70 l
- Number of compartments: 3
- 3 internal galvanized steel containers
- 2 hinged doors
- Key lock with key provided as standard
- 3 pedal levers
- Structure color: light grey RAL 7035
- 3 flaps with opening via pedal levers
- Set of 3 self-adhesive and resistant protect-pads in yellow, blue and anthracite grey colors
- Self-extinguishing, TÜV certified
- Guaranteed solidity and resistance
- Warranty: 5 years
- The product complies with the principles of the United Nations Global Compact
