

## Three-seater fire-retardant polypropylene bench h15902

Three-seater fire-retardant polypropylene bench for waiting rooms. Steel structure and resistant seats. Made in Italy. Dimensions: 155x59xH80 cm.

The **three-seater fire-retardant polypropylene bench** is a professional furnishing solution designed to ensure maximum resistance and safety in collective spaces. Made with a **polypropylene copolymer** shell, a high-durability plastic material, this seat is conceived to withstand intensive daily use. The structure rests on a robust black painted beam that ensures stability, solving the operational problem of orderly seat management in large public spaces. Thanks to the **Class 1 fire-retardant** certification, the product meets the rigorous safety standards required for furnishing **offices, hospitals, airports, and banking contexts**, offering ergonomic and lasting support for the professional target.

## Technical features

- Capacity: 3 seats
- High-resistance polypropylene copolymer shell
