

## Three-seater fire-retardant polypropylene copolymer bench h15915

Three-seater fire-retardant polypropylene bench for waiting rooms. Steel structure and resistant seats. Made in Italy. Dimensions: 155x59xH80 cm.

The **three-seater fire-retardant polypropylene copolymer bench** represents an essential furnishing element for the professional management of waiting areas. Designed to combine safety and longevity, the seat is made of **polypropylene copolymer**, a plastic material selected for its exceptional impact resistance and durability over time. The structure rests on a solid black painted beam that guarantees maximum stability, solving the operational problem of orderly seating arrangement in high-traffic environments. Thanks to the **Class 1 fire-retardant certification**, the product meets the rigorous safety standards required for **offices, hospitals, post offices and banks**, offering an ergonomic and reliable solution guaranteed by **Made in Italy** quality.

## Technical features

- Patented model
- Capacity: 3 seats
