

Three-sided advertising totem h738_206

Three-sided advertising totem h738_206 for interiors, height 2000 mm. Silver anodized aluminum structure with three white sheet metal display surfaces.

The **three-sided advertising totem h738_206** is a free-standing display solution designed to maximize 360° visibility in indoor environments. Characterized by a refined **curved line**, the totem is made with a unique **silver anodized aluminum** profile, which gives the structure a modern and professional appearance. The three display surfaces are made of **white pre-painted sheet metal**, offering a solid and durable support for corporate communication. Stability is guaranteed by a silver powder-coated metal base, equipped with holes for **floor fixing**. This support solves the operational problem of signage in high-traffic areas, ensuring user safety thanks to the included **stability certificate**.
