

Tilting overbed table h708_44

Professional H708_44 overbed table in steel and laminate, 80.5x38.5 cm. Adjustable height and tilting top for care and hospitalization.

The **H708_44 tilting overbed table** represents an essential support to optimize comfort and functionality during hospitalization in contexts such as **hospitals, nursing homes, care homes, and home care**. This device has been designed to solve critical issues related to the daily activities of bedridden patients, offering a stable and versatile surface for eating, reading, or using electronic devices, significantly improving user autonomy and facilitating the caregiver's task.

Technical specifications

- **Tabletop surface:** 80.5 x 38.5 cm, wide and functional for various activities.
- **Height adjustment:** from 73 to 111 cm, with a continuous automatic system.
- **Lifting mechanism:** operated via a smooth lateral lever, without jerks.
- **Tilting top:** manual adjustment of the support angle for ergonomic activities.
- **Supporting structure:** high-resistance painted steel with a U-shaped base for insertion under the bed.
- **Top material:** wood-effect laminate, wear-resistant and easy to sanitize.
- **Mobility:** 4 swivel wheels, 2 of which are equipped with a safety braking system.
- **Intended use:** hospital, rehabilitation, and home environments.
