

Professional 4-clip stainless steel toaster h2311

Toaster with clips for professional use. Solid and durable and built to last. Independent slots.

Professional toaster ideal for sandwiches and bread slices. The product is **Made in Italy** and is made entirely of **stainless steel**, a material not only beautiful to look at, but sturdy and resistant that guarantees: easy cleaning, resistance to scratches and impacts and hygiene. Equipped with **4 clips** that allow toasting 4 slices of bread or sandwiches simultaneously. The **slots are independent**, meaning that, to save electricity, you can turn on even just one slot at a time, in a practical and comfortable way thanks to the soft-touch knobs. The **timer** facilitates food cooking, allowing you to achieve the desired browning, while the very useful indicator lamps allow easy visualization of active slots. The **package includes the heating clips**. The crumb tray is safely dishwasher-safe, and, to facilitate cleaning operations, the heating elements are self-cleaning.
