Dog waste collection totem h109154

Dog waste collection totem with sheet metal bag dispenser (286x369x53 mm) and bin (340x502x250 mm). Total height 180 cm, capacity 35 lt, ground fixing.

Modular totem designed for the hygienic management of dog waste collection in public and private spaces. The system combines an **HD-PE bag dispenser** and a **disposal bin** mounted on a fixed tubular structure, solving the problem of the lack of dedicated stations in dog areas and public walkways.

Technical features

- **Dispenser:** sheet metal, dimensions 286x369x53 mm, lower slot for bag extraction, book-style opening with key in the upper part, maximum capacity 200 bags
- **Bags:** HD-PE, dimensions 25x31 cm, packs of 100 pieces
- **Bin:** sheet metal, dimensions 340x502x250 mm, swivel lid, rear door for bag removal, integrated bag holder ring
- **Structure:** tubular arch diameter 38 mm, ground fixing using expansion bolts
- **Overall dimensions:** total height 180 cm, width 42 cm
- **Capacity:** 35 liters
- **Supply condition:** disassembled product

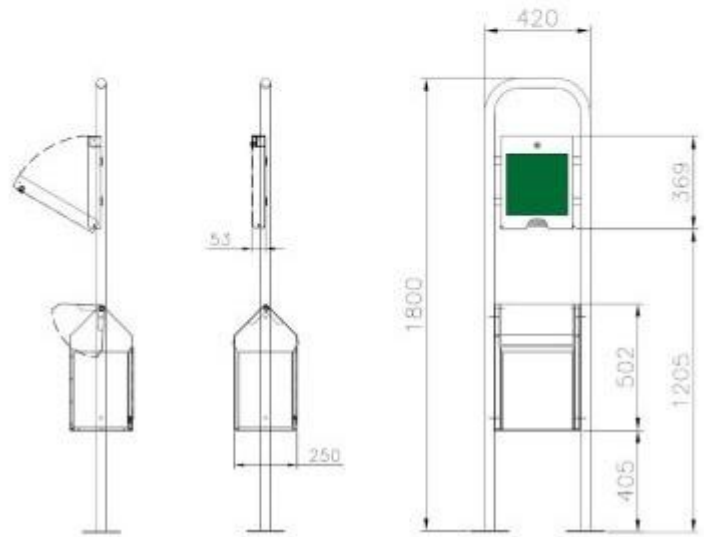

Options

- Pack of 3000 HD-PE bags
