

Towel shelf with rail h218_240

Towel shelf h218_240 in AISI 304 stainless steel (102.7x600x203 mm) with lower rail. Concealed wall mounting with screws.

The **Towel shelf with rail h218_240** is a professional sanitary furnishing accessory designed for the setup of high-traffic bathrooms. This accessory addresses the operational problem of optimizing small spaces in restrooms, allowing both the storage of folded linens and the quick-drying layout of bath towels on a single anchoring point. Designed for a target audience of public facility managers and interior designers, the shelf is made of AISI 304 stainless steel to ensure high durability and resistance to intensive use. The design includes an upper storage shelf and an integrated lower rail. The system features a concealed wall mounting that eliminates visible joining elements for greater aesthetic cleanliness and ease of sanitization. The product is supplied complete with installation screws and is available in various finishes.
