Especially suitable for heavy traffic areas and the towels h4002 allows a 'quick-drying by air jet and is equipped with a super powerful engine with adjustable internal switch. It 's compact and flat with only 10 cm deep and has a resistance low energy

Specifications:

- Operation: Automatic
- Material outer cover: White Steel - Stainless Steel
- Internal base material: plastic fireproof technical
- Fan Material: Aluminum
- Voltage: 220-240 V
- Frequency: 50-60 Hz
- Isolamento Electrical: Class II
- Consumption: 12 A
- Engine type: Class F Brush
- Motor consumption: 250 W
- Absorption Resistance: 2500 W
- Total power consumption: 2750 W
- Fan motor rpm: 4500
- Air temperature: 49 ° C
- Air flow: 450 m3 / h
- Speed ??'air: 95 km / h
- Sound level: 65 dB
- Drying time: about 29 sec
- Index of protection IP23
- Weight: 4.85 kg
- Measurements (wxhxd): 272x320x164 mm

INFORMATION

- **activation** photocell
- **Strengths** the least loud
- **typology** vandal-resistant, traditional
- **Material** Steel
- **warranty** 2 anni
- **Power** 2750 W
- **Power in watts** 2750.000000
- **Height** 32 cm
- **Depth in millimetres** 164.000000
- **Width in millimetres** 272.000000
- **Height in millimetres** 320.000000
- **Depth** 16,4 cm

- **Width** 27,2 cm
- **Drying time** 29 sec
- **Color** bianco
