

Train tunnel 2 carriages for children h735_35

Train-shaped tunnel complete with 2 carriages with windows and 2 bases. UNI EN 71-1/2/3/8 certified.

One of the most popular outdoor games for the little ones is the **plastic tunnel, modular and sectional**. This model, in the **shape of a train**, is created by interlocking and connecting no. **2 carriages**, complete with **side windows** and **bases**. Children will be able to play and have fun in **total safety**, thanks to the **stability** and **reliability** of the structure, made of **high-resistance plastic material** and **UNI EN 71-1/2/3/8 certified**. The **bright colors** of the carriages, resistant to UV rays and weathering, stimulate the creativity of children who can play while socializing and developing motor and behavioral skills.

Technical features:

- No. 2 carriages
- Two sides of the carriages are equipped with 1 window, two other sides include 2 windows
- 2 bases
- Construction material: high-resistance plastic material
- Resistance and reliability
- Safe game that guarantees the safety of children
- In compliance with the UNI EN 71-1/2/3/8 Standard
