

Trampoline for shopping centers 1-place h1018_01

Single outdoor trampoline with galvanized frame, 180 x 180 cm jumping mat and access ladder. Dimensions: W 266 x D 266 x H 352 cm.

The **H1018_01 playground trampoline** is designed to offer **fun in total safety** in public and professional contexts such as **playgrounds, campsites, beach resorts, and recreational areas**. This model **without corridor** is designed for modular or single installation, also ideal for small spaces.

The supporting structure is made of **hot-dip galvanized steel**, a technique that guarantees **extreme resistance to corrosion**, even in marine environments or humid climates. All components, including the **galvanized screws**, are designed for intensive outdoor use.

The jumping system consists of **pre-galvanized steel tension springs**, 27 cm long and 3 cm in diameter, combined with a **reinforced nylon jumping mat**, yellow, with **high bounce**, measuring 180 x 180 cm. The entire area is protected by a **perimeter safety net**, in 4x4 cm square mesh with ultra-resistant soft thread, which **prevents accidental exit** of users.

The trampoline is equipped with **perimeter pads** in **fire-retardant PVC** padded with 10 cm of **high-density foam** for complete protection. The **lower aesthetic cover** in metal mesh is coated with fire-retardant PVC and includes a **maintenance door**. Access to the activity is through a **metal ladder with treated wood steps** for outdoors (180 x 80 cm), while user entry is made possible thanks to a **slit in the net** closed by **teflon clips**, practical and safe.

Completing the equipment is a **1-year international warranty**, the **use and maintenance manual**, and the **activity logbook** for conscious management in compliance with regulations. The ministerial code and assembly **are not included**; they are available upon request and subject to a quotation.

Offer a safe, resistant, and certified play area with the **1-place trampoline H1018_01**. Buy it now or request a dedicated quotation for public parks or accommodation facilities.
