

Trampoline with corridor 1-seat h1018_02

Single trampoline with side corridor, safety net and galvanized structure. Dimensions: 346 x 266 x H 352 cm.

The **H1018_02 trampoline with 1 seat and side access corridor** is a professional solution designed for use in **public playgrounds, recreational areas, campsites, schools and tourist facilities**. Designed to ensure **maximum safety and durability**, it is ideal for intensive use in outdoor environments.

The **frame is hot-dip galvanized**, ensuring **exceptional resistance to corrosion** and atmospheric agents. The jumping area, measuring **180 x 180 cm**, is made of **reinforced nylon elastic mesh**, in high-rebound yellow, supported by **27 cm pre-galvanized steel springs**. The **perimeter safety net** with 4x4 cm square mesh ensures the safe containment of the child during use.

Unlike the basic version, this model is equipped with a **side access corridor**, built with **outdoor-treated wooden boards**, protected by a **safety pad**.

The structure includes **protective pads** in fire-retardant PVC padded with 10 cm sponge and a **lower aesthetic screen** composed of metal mesh coated in fire-retardant PVC. Access to the structure is facilitated by a **metal ladder with treated wood steps**, dimensions 180 x 80 cm. All materials are designed to offer **maximum safety, durability and ease of maintenance**.

Ensure a safe and professional play experience in your park with the **H1018_02 trampoline with corridor**. Order now or request a personalized quote for public or tourist supplies.

1. What is the main difference compared to a basic trampoline?

The H1018_02 model includes a closed side access corridor, which allows for a more controlled and safe entry.

2. Is it suitable for continuous use in marine or humid environments?

Yes, the hot-dip galvanized frame and treated screws make it perfect even for extreme climates.

3. Is specialized personnel required for installation?

The product is supplied with a detailed manual.

4. Is the product equipped with a ministerial code?

No, the product is not equipped with a ministerial code.

5. Is the product supplied already assembled?

No, upon request and subject to a quote, assembly can be requested.

Mini buying guide:

The trampoline with **side access corridor** is the ideal choice for those who need **entry control**, such as schools, **high-traffic public parks** or tourist facilities with supervised management of play activities.

Compared to base models, it offers greater **logistical organization**, improving **safety** and facilitating **access for technical staff**.

The **H1018_02** model is perfect for those looking for a **professional, robust product that complies with European safety regulations**.

Trampoline with corridor, 1-seat trampoline for playgrounds, trampoline with controlled access, professional galvanized trampoline, trampoline with safety net and fire-retardant pads, play equipment for public spaces.
