

Barrier with reflective panel W. 120 cm h109160

Hot-dip galvanized steel barrier with double crossbar and reflective panel. Dimensions: W. 120 cm h. 110 cm.

Road barrier ideal for delimiting and securing areas closed to traffic for events, warehouses, and construction sites.

The barrier is made of **hot-dip galvanized steel** with a double horizontal crossbar and **reflective panel** in white and red.

Barrier consisting of a perimeter frame in tubular steel Ø 38x1.2 and vertical drawn steel profiles Ø 8 mm welded to the frame at a distance of 12 cm from each other.

Furthermore, the road barrier is equipped with side appendages in d.10 mm rod on one side and hooks in 30x3 mm shaped plate on the opposite side.

The product is entirely hot-dip galvanized according to **UNI standards**.

The barrier is available in the following variants:

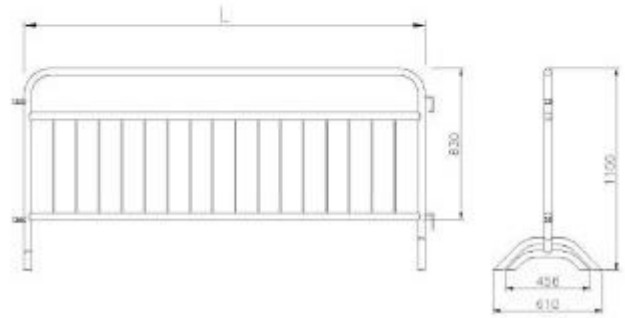

- class I **single-sided** reflective panel
- class I **double-sided** reflective panel

Technical features:

- Material: Galvanized steel
- Width: 120 cm
- Height: 110 cm
- Tubular: D. 38 mm
- class I reflective panel
