

Transfer board with non-slip grip h136_93

Transfer board with non-slip grip. Capacity 150 kg

Transfer board designed to be effectively portable, in fact it has a **thickness of only 4 millimeters** and a **hand grip hole**. The board has a bright color and a **double notch** for greater stability and to ensure maximum safety during transfer. The composite fiber ensures **high resistance** and avoids the harmful surface chipping that occurs over time with other materials. The high smoothness in the upper part allows you to slide easily, enabling the transfer. Equipped on the **lower base** with **two non-slip material strips** to promote **grip** between the aid and the contact points of the transfer surfaces. The non-slip sections further stabilize the board. **CE certified, Class I medical device, made in Italy.**

Technical specifications:

- Dimensions: L.77xW.32.5 cm
- Thickness: 4 mm
- With non-slip grip
- Maximum capacity: 150 kg
- Material: synthetic fiber
- CE certified
- Class I medical device
- Made in Italy
