

Transfer board with six handles h136_98

Horizontal transfer board. Dimensions: 170x50x0.5 cm

Aid made of **lightweight** but highly **resistant** material to ensure **maximum safety** and comfort for patients and caregivers during lateral movements. The upper surface of the stretcher is smooth to facilitate transfer, while the lower part is equipped with two anti-slip strips. The board is equipped with three lateral grip handles and allows two caregivers to significantly reduce the effort required to move users when passing between beds, stretchers, operating or radiographic tables (of different heights up to 20 cm). **Radiolucent** transfer sheet.

Technical features:

- Dimensions: 170x50x0.5 cm
- Maximum capacity: 135 kg
- Radiolucent
- With 6 handles
