FAQ:

- 1. Is the box suitable for cones of different sizes?**
Yes, the internal dimensions allow it to accommodate cones of various standard sizes.
- 2. Is it possible to use the box for other products?**
Yes, it can contain other small products or snacks besides cones.
- 3. How do you clean the box?**
We recommend using soft cloths and non-abrasive cleaners to maintain transparency.
- 4. Is the box impact-resistant?**
Plexiglass is sturdy but should still be handled with care to avoid breakage.
- 5. Is the box easy to transport?**
Yes, thanks to its lightweight and compact design, the box is simple to move and position according to needs.

Mini buying guide:

Choose a **plexiglass box** with dimensions suitable for the number of cones to be stored and the type of display desired. Evaluate the importance of **transparency** for better presentation and ease of **cleaning** to maintain a hygienic environment. This 46 x 33 x 20 cm model is ideal for ice cream parlors and premises that need a practical and professional solution for protecting and displaying their ice cream cones.
