

Transportable polyethylene tank h1042_01

Transportable polyethylene tank h1042_01, 210 L for Diesel, approved for transport for immediate consumption according to ADR 1.1.3.1 c). Equipped with a 12 V pump (40 L/min), 4.37 m hose and automatic nozzle.

The **Transportable polyethylene tank h1042_01** is a 210-liter mobile container approved for transport for the purpose of immediate consumption according to the ADR 1.1.3.1 c) artisan rule. Made of single-walled non-coated polyethylene (LLDPE), it features a grey container and an orange lid. The structure integrates a support for the dispensing nozzle, a filling nozzle, a ventilation system with pressure relief, slots and handles for forklifts, and dedicated recesses for securing during transport. It is supplied in a pre-assembled condition with a pre-mounted 12 V DC self-priming pump with a maximum flow rate of 40 L/min, a 4.37-meter dispensing hose (DN 19 diameter), an automatic nozzle for Diesel, and a 4-meter electric cable with crocodile clips.

Technical features

- **Content volume:** 210 l
- **External dimensions (length x height):** 78.5 x 59.5 x 68.5 cm
- **Weight:** 26 kg
- **Package weight:** 38 kg
- **Use:** mobile
- **Installation position:** Transport
- **Material:** single-walled LLDPE
- **Coating:** non-coated
- **Container color:** grey
- **Lid color:** orange
- **Operating voltage:** 12 V DC
- **Pump drive:** Pump
- **Maximum flow rate:** 40 L/min (max.)
- **Dispensing hose length:** 4.37 m
- **Hose diameter:** DN 19
- **Stackable:** YES
- **ADR artisan rule:** according to ADR 1.1.3.1 c)
- **Dispensing nozzle:** automatic Diesel
- **Cable length:** 4 m
- **Plug / Connection:** Crocodile clips
- **Assembly condition:** assembled
- **Warranty in years:** 2
